INTRODUCTION

Implementation of the recommendations of Colombia's new Best Corporate Practices Code must be reported by issuers to the Financial Superintendence of Colombia (SFC, for the Spanish original) by means of this Best Corporate Practices Implementation Report.

The objective of this report is to inform the securities market of each issuer's implementation, or failure to do so, of the code's recommendations. To this end, for each recommendation there are three boxes for YES, NO and N.A. (not apply), as well as a space to supplement its response as follows:

If the answer is yes, the issuer must briefly describe the way such implementation has been made. If not, the issuer must explain the reasons why it has not been adopted.

The N.A. response can only be provided by the issuer in cases that for legal reasons it is not possible to adopt the recommendation. In this case, the issuer must indicate precisely the law or regulation which prevents it.

Given that, some recommendations are made up of a number of specific aspects, is important to emphasize that these will only be understood as implemented if all the aspects that compose them are met, unless the reason for not adopting some is of legal nature, which should be indicated.

Each recommendation has a box to indicate the date the issuer first implemented it. Additionally, there will be the box where the dates on which changes are made will be recorded.

Finally, when the issuer by its nature does not have the specific body to which the recommendation relates it shall be understood that it refers to the equivalent body within the entity.

This principle is enshrined in Articles 9 and 36.2 literal a of the Company's Bylaws, establishing equitable treatment for all shareholders and investors as a fundamental premise for the actions of the Company and even of the Board of Directors. <p>In order to give greater visibility to the measures for the protection of shareholders and holders of securities other than shares, among which is the guarantee of their equitable treatment, the Company has generated an extract of the chapter on the subject contained in the Corporate Governance Code, which is available on the corporate website: https://www.grupoexito.com.co/es/2.Protection-Shareholders-.pdf</p>						
<p>Likewise, prior to the ordinary meeting of the General Shareholders' Meeting held in 2023, among the decisions adopted by the Board of Directors was the approval of the implementation of measures to ensure the equitable treatment of all shareholders and to encourage their participation in the respective shareholders' meeting in light of Part III, Title I, Chapter VI of the Basic Legal Circular (External Circular 29 of 2014):</p>

3.1. capital dilution, in the event of any transaction that may give rise to such a dilution.

As explained in July 2022 by the Company to the Financial Superintendency¹:

- As of the date of completion and transmission of this survey, the most recent evidence of the adoption of this practice by the Company is verified in the information made available to the shareholders as a result of the transaction that was subject of the General Shareholders' Assembly at its extraordinary meeting held on September 12, 2019 (this was the last transaction that could result in the dilution of capital of minority shareholders), which can be found at the following link: <https://www.grupoexito.com.co/en/investors-assembly-2019-meeting-extraordinary-12-september-supporting-documentation>
- During the years 2020, 2021, 2022, and 2023, no transaction was carried out that could lead to the dilution of and, therefore, lead to the implementation of said measure.
- In 2023, Grupo Éxito was spun off from its parent company Companhia Brasileira de Distribuição ("CBD or GPA"), a transaction that did not imply a dilution of Éxito's capital. Measure No. 6 Listing of corporations clustered in conglomerates.

6.1. Without prejudice to the independence of every single company of the conglomerate and to the responsibilities of its management bodies, the conglomerate has an **organizational structure** that defines for the three (3) governance levels (Shareholders Assembly, Board of Directors, and senior management), the key bodies and individual positions and the relations between them. Such a structure

is public, evident, and transparent; it determines clear responsibility and communication channels; it facilitates the conglomerate's.

6.1 Measure implementation YES NO N/A

YES. Briefly indicate: The shareholding structure of the Conglomerate is published on the Company's website, which explains the participation of the Company in each of the subordinated entities and the relationship that exists with each of the companies that make up the Business Group, which allows to easily define the strategic orientation, supervision, control and effective administration of the Conglomerate, respecting in any case the autonomy of each company in the follow-up of procedures for decision making.

Likewise, there is information on the corporate structure according to the financial statements, the statutory auditors, and the internal audit.

Proof of the application of this practice was presented during the year 2021, when the Company standardized the Corporate Governance practices of the national subsidiaries in which it had a participation equal to or greater than 95% of the capital stock, through a process of simplification of the governance structure, unifying the boards of directors in a single body called the Subsidiaries Steering Committee, being this the highest management body. The above, in order to: (i) have a single governing body in charge of carrying out its own strategic functions, seeking uniformity in corporate governance practices; and (ii) unify to the greatest extent possible, except for matters specific to the industry of each company, its bylaws and corporate governance codes, respecting in all cases the autonomy of each company in following the procedures for decision-making and the singularities of each of the businesses.

6.2. Under the previous provision, **the holding company and its most important subordinates have defined a framework for institutional relations** through the subscription of an agreement. Such an agreement is public, has been approved by the Board of Directors of each of the companies, and it regulates the topics indicated in recommendation 6.2.

6.2 Measure implementation YES NO N/A

YES. Briefly indicate: Although to date there is no single agreement of a public nature approved by the highest administrative body of each of the companies that are part of the conglomerate that regulates all matters concerning their various relationships, different practices have been adopted at the Group level that are related to recommendation 6. 2 and which are aimed at achieving: uniformity and homogeneity in their actions in order to achieve cohesion, the existence of the same primary interest to pursue and defend, the exploitation of synergies, the definition of the guidelines to be complied with for the execution of contracts among them, the common vision regarding Control architecture matters, among others.

In order to substantiate the foregoing, the following are some examples of practices related to this measure that the Company has adopted, as follows:

- The Company's Board of Directors approved the applicable conglomerate governance rules and incorporated them into the Corporate Governance policies contained in the Corporate Governance Code.
- The Company and its subsidiaries have a common mission: *“Work so that the client returns”*, this being the interest that all companies pursue and defend, and with shared principles and values such as: service, teamwork, innovation, among others. In the same way, there is a single superior purpose at the Group level: *“We nurture opportunities for Colombia”*.
- As part of the process of seeking cohesion of the conglomerate and with the aim of achieving a common and shared vision at the structural level of the Business Group:
 - In the Corporate Governance Code, regarding the Company's control architecture, it is expressly established that the Risk Management and Internal Control System, attends to the

nature, size, complexity, risks, inherent to the activity that is developed and legal requirements of the Company and of each of the companies of the Business Group.

Likewise, the Code expressly states: *"The Statutory Auditing service will be assigned to the Company and its subordinates, with the same signature, with a common and shared vision of the Business Group."*

- During 2021, the Company carried out a process of standardization of the Corporate Governance practices of the national subsidiaries, so that their Corporate Bylaws and each of their Corporate Governance Codes contemplate - as far as reasonably possible - the same practices and provisions of the Company, with the pertinent exceptions according to the particularities of the industry and business of each subsidiary and respecting, in any case, the autonomy of each company in making certain decisions.
- The national subsidiaries whose structure corresponds to simplified joint stock companies (S.A.S.) and which are wholly owned by the Company, have a single and same management body called the Subsidiaries Steering Committee (Comité Directivo de Filiales), which exercises the functions of the highest management body of any company and which, being the same for such companies, seeks to ensure cohesion, unity and uniformity in practices and systems, efficiency, coherence and strengthening of the strategy, etc.
- The criteria and mechanisms for determining the price and other conditions when transactions between related parties are presented, can be found in the Policy and Procedure that regulate the matter and whose purpose is to guarantee transparency, that transactions are always carried out at market prices and that the principles governing the aforementioned Policy are complied with².

² Said principles are: satisfies the interest of the Company and does not cause harm to it, it is intended to offer a better service, better price or better conditions for the Company's customers, value is generated for the Company, it is not undermined or jeopardizes the Company's ability to comply with its obligations to third parties, respects the rights of minority shareholders, transparency and promotes the use of synergies in accordance with the limitations and restrictions established by law.

<p>The Company's Policy is found in the seventh chapter of the Corporate Governance Code and within it it is expressly established that the transaction between related parties must, among other things, promote the use of synergies. Likewise, the Corporate Governance Code of the subsidiaries also contemplates the guidelines of the Company's Policy.</p> <p>The Company's Corporate Governance Code can be consulted in the following route: https://www.grupoexito.com.co/es/1.Corporate-Governance-Code.pdf</p> <p>The respective Procedure for Related Parties Transaction can be consulted in the following route: https://www.grupoexito.com.co/es/1.Procedure-related-party-transactions.pdf</p>

Measure No. 7 Conflict resolution.

7.1. YES. Briefly indicate: Article 21 of the Company's Bylaws and Article 5 of the Rules of Procedure of the General Shareholders' Meeting (which is contained in the Code of Corporate Governance (section 2.1.1)) provide for three different mechanisms for disseminating the call of the meeting that the Company may use to inform the shareholders of the Meeting, among which is the notice of publication in a newspaper of wide national circulation.

Additionally, in compliance with its obligations as an issuer in the Colombian securities market, the Company publishes such notice through the relevant information mechanism provided by the Financial Superintendency.

In development of the good practices in corporate governance adopted by the Company, the notice of call (i) is published on the corporate website; and (ii) is sent in a newsletter addressed to shareholders sent by the Investor Relations Department.

In the call to the meetings (one ordinary and one extraordinary) of the General Shareholders' Meeting in 2023, the Company ensured the maximum dissemination and publicity of its call, through: its publication in newspapers of wide national circulation (El Tiempo and El Colombiano), in the electronic portals of Primera Página and Valora Analitik,

10.7. Notwithstanding the provisions of Article 182 of the Code of Commerce, to strengthen and ensure the shareholders’ rights of inspection and information before the Assembly, **the bylaws recognize their right to propose the inclusion of one or more points for discussion within the Agenda of the General Assembly of Shareholders, regardless of the size of their stock participation.** The shareholders will make such a request within five (5) common days following the publication of the meeting call.

In addition to the above, although the law does not contain a regulation on the handling of substitute proposals that are proposed during a General Shareholders' Meeting; the Company has a regulation for the treatment of substitute proposals that allows to process them in an appropriate manner, with adequate procedures that provide a correct operation of the meetings and, in that sense, avoid confusion on how to proceed in case substitute proposals are presented.

16.4. The corporation considers that the mere review of the résumés by the shareholders is not enough to decide on the candidates’ fitness. Consequently, **it has internal procedures to assess any legal incompatibilities and inabilities, as well as a candidate’s appropriateness to the needs of the Board of Directors.** These procedures evaluate a set of criteria that the candidates’ functional and personal profiles must meet, and verify their compliance with some objective requirements to become a member of the Board of Directors, and some additional requisites to become an independent member.

16.4 Measure implementation YES NO N/A

YES. Briefly indicate: Chapter 2.2.2. of the Corporate Governance Code establish the Board of Directors Election and Succession Policy, in which it provides, among its articles 4 to 7, the characteristics to be evaluated by the Appointments, Remuneration and Corporate Governance Committee, among which are personal characteristics such as level of knowledge, management and leadership skills, personal aptitudes, commitment and impartiality, as well as an analysis of their disabilities and incompatibilities in which they may be involved (Article 5). Likewise, the specific requirements that candidates for independent members must meet are established (article six).

In the assessment report of candidates to the current Board of Directors carried out in 2023, it appears that the Company carried out an analysis of the inabilities and incompatibilities of the candidates, prior to recommending their appointment to the General Shareholders Meeting.

16.5. Besides the **independence** requirements set forth by the Law 964 of 2005, the corporation **has voluntarily adopted a more rigorous definition** for this concept than that of the said law. Such definition has been accepted as a reference framework through the Rules of Procedure of the Board of Directors; it includes, among other requirements to be assessed, that of the relationships or links of any kind of a candidate to become an independent member with any controlling or significant shareholders or their related parties, either domestically or abroad. Furthermore, it requires a double statement of independence: (i) that of the candidate before the corporation, its shareholders, and senior management members, expressed in his/her letter of acceptance, and (ii) that of the Board of Directors with respect to the candidate’s independence.

16.5 Measure implementation YES NO N/A

YES. Briefly indicate: The definition of independent member established in the first chapter of the Corporate Governance Code expressly includes the recommendation by establishing additional requirements to those established in Law 964 of 2005, associated with the relationships of the candidate with the shareholders, with the Senior Management and with stakeholders, including independence criteria established in Law 964 of 2005, in the American regulation applicable to the company as an issuer in the U.S. stock market, in the Brazilian regulation applicable to the company as an issuer in the Brazilian stock market, in the S&P Global Corporate Sustainability Assessment (CSA). This is therefore a more rigorous definition of independence.

In this regard, article sixth of the Board of Directors Election and Succession Policy of the Board of Directors, contained in chapter 2.2.2 of the Company's Corporate Governance Code, establishes that the candidates for independent member must declare such quality in the communication where they accept their application to belong to the Board of Directors. As proof of the exercise of this practice, it is possible to verify on the Company's website the declarations of independence of the independent directors appointed in 2023 regarding the Company, the shareholders, its subsidiaries, and domestic and foreign related parties.

16.6. Based on its internal regulations, the corporation considers that the Board of Directors, through its Chairman and with the support of the Appointment and Remuneration Committee, or that which fulfill its duties, is the most appropriate body to centralize and coordinate the process to appoint the Board before the General Meeting of Shareholders. In this way, the shareholders that wish to become Board members based on their stock participation, may learn about the Board’s needs, express their aspirations, and negotiate any stock-based balances and distribution among the different types of members. Moreover, they may present their candidates and agree that the Nomination and Compensation Committee assess their fitness before the vote during the General Assembly of Shareholders.

16.6 Measure implementation YES NO N/A

YES. Briefly indicate: Both the Board of Directors Election and Succession Policy established in Section 2.2.2 of the Corporate Governance Code and the Procedure for the Election of Board Members establishes that the Board of Directors, through its Chairman, and with the support of the Appointments, Remuneration and Corporate Governance Committee, is the most suitable body to centralize and coordinate the process of forming the Board of Directors prior to the General Shareholders Meeting. 16.7. Regulation of the Board of Directors foresees that the assessment of the candidates' suitability must take place before the General Assembly of Shareholders. Consequently, the shareholders will have, with enough anticipation, sufficient information on the proposed candidates (personal qualities, suitability, background, experience, integrity, etc.) to evaluate them well.

16.7 Measure implementation YES NO N/A

YES. Briefly indicate: It is set forth in both the Board of Directors Election and Succession Policy contained in Section 2.2.2 of the Corporate Governance Code and the Procedure for the Election of Board Members. The procedure for the assessment of candidates is carried out prior to the General Shareholders Meeting by the Appointments, Remuneration and Corporate Governance Committee, which must prepare a report on each candidate, that shall be submitted to the Board of Directors, so it can conduct a final, decisive assessment of the list of candidates it will recommend to the shareholders to form the Board of Directors. To that end, the Board of Directors shall ensure that the candidates it recommends, considered as a whole, fulfil the necessary requirements pursuant to the provisions of Article 7 of the Policy.

17.1. Regulation of the Board of Directors provides that **the independent and proprietary members are always a majority with respect to the executive members** whose number, if they are included in the Board of Directors, will be the minimum necessary to meet the information and coordination requirements that exist between the Board of Directors and the corporation’s senior management.

18.2. The corporation's internal regulations foresee the possibility that the **Chairman of the Board of Directors may have a different treatment than that of the other members**, both in his obligations and his remuneration, because of the scope of his specific functions and his increased time commitment.

18.2 Measure implementation YES NO N/A

21.2. The procedure for the management of conflicts of interest makes a distinction about their nature as occasional or permanent. If they are occasional, the applicable procedure indicates the rules and steps to be followed, which should be relatively easy to implement and hard to avoid for those affected. In the case of permanent conflicts of interest, the procedure stipulates that if the situation affects the corporation’s overall operations, it must be regarded as a cause for the obligatory resignation of those affected, for it makes it impossible for them to hold the position.

21.2 Measure implementation YES NO N/A

YES. Briefly indicate: In accordance with the definition of conflicts of interest contained in the first chapter of the Corporate Governance Code, as well as in numeral 5.5. of the Code of Ethics and Conduct, the Company has differentiated two types of conflicts of interest, as follows: (i) conflicts of interest that in the judgment of the Conflict of Interest Committee affect the operations of the Company as a whole and are of such magnitude that they make it impossible for the person involved to perform his or her duties, which coincides with the concept of permanent conflict of interest; and (ii) conflicts of interest that in the judgment of the Conflict of Interest Committee can be managed following the rules set forth in the Conflict of Interest Policy, which coincides with the concept of sporadic conflict of interest.

It is the responsibility of the Conflict of Interest Committee to define the solutions and sanctions to be imposed in each case, when there is a violation of the duties and/or prohibitions defined in the Conflict of Interest Policy, which includes, among others, the possibility of removing from their position anyone who presents a permanent conflict of interest that affects the operations of the Company as a whole and that is of such a magnitude that makes it impossible for the person involved to perform his or her duties.
