## Second quarter 2010 Financial Highlights

Working Capital reached a favorable position of COP $\$ 280,347$ million, improving COP 234,585 million compared to COP $\$ 45,762$ million for the same period last year. This was mainly due to inventories dropping 3.8\% and Suppliers increasing 15.9\% versus the same period in 2009.

Financial Debt decreased $46.7 \%$ to COP $\$ 655,130$ million compared to COP $\$ 1,229,685$ for the same period last year. The interest expense coverage ratio, together with the leverage ratio, improved compared with the same period last year, reaching 14.28 versus 8.81 and 1.13 versus 1.31 , respectively.

Net Revenues increased 5.4\% to COP $\$ 1,736,895$ million for the second quarter of 2010 compared to $\operatorname{COP} \$ 1,648,345$ million for the same period last year, this consisting of a $4.6 \%$ increase in Same Store Sales as well as $0.8 \%$ increase obtained through the company's expansion plan.

Gross Profit increased 3.6\% to COP\$427,415 million compared to COP $\$ 412,505$ million for 2009. As a percentage of net revenues, gross margin went to $24.6 \%$ from $25.0 \%$ mainly due to: (i) higher share of electronics attributable to the seasonality brought by the world cup and (ii) a more promotional quarter compared to the year before.

Selling and Administrative Expense slightly increased 0.9\% to COP\$369,207 million compared to COP $\$ 365,815$ million for the same period last year. As a percentage of net revenues, administrative expense decreased to $21.3 \%$ from $22.2 \%$. This is mainly due to (i) the ongoing implementation of operating excellence and expense control initiatives and (li) expenses this quarter had growing sales to dilute themselves.

Operating Income increased 24.7\% for a total of COP $\$ 58,208$ million versus COP $\$ 46,690$ million obtained during the same
period last year. As a percentage of net revenues, operating income went to $3.4 \%$ from $2.8 \%$ mainly due to lower expenses as a percentage of Net Revenues.

EBITDA increased 8.6\% for a total of COP $\$ 127,756$ million compared to the COP $\$ 117,680$ million obtained during the same period last year. As a percentage of net revenues, the EBITDA margin went up to $7.4 \%$ from $7.1 \%$ mainly due to lower expenses as a percentage of Net Revenues.

Net Financial Expenses decreased $-56.6 \%$ to COP $\$ 13,441$ million from COP $\$ 30,973$ million for the same period last year. As a percentage of Net Revenues they went to $0.8 \%$ from $1.9 \%$ in 2009 mainly explained by lower financial debt.

Other Non-Operating Income and Expense went to $(C O P \$ 5,239)$ million from COP\$20,604 million for the same period last year. This was mainly due to non-recurrent profits obtained back in the second quarter of 2009 as a result of asset disposals.

Minority Interest decreased to COP\$15 million from COP $\$ 3,796$ million for the same period last year. This is explained by the purchase of an additional 22.5\% stake in Carulla-Vivero S.A. Total ownership now reaches $99.87 \%$.

Income Tax decreased to COP\$5,955 million compared to COP $\$ 7,283$ million for the same period last year. As a percentage of Net Revenues, taxes represented 0.3\%.
